

"Whatever you ask, believe that you receive it and you shall have it."

Hi there,

I'm George – and I'm not the first to give that advice.

I do however have access to what many see as truly Miraculous, and since, "To him that knoweth to do good and doeth it not, to him it is sin", I simply MUST share this. What I sincerely love about M.E. is: it does NOT require the beliefs of the client in order to be effective.

**Stress Relief –
Guaranteed**

Transform:

- **Physical Concerns**
- **Financial Issues**
- **Relationships**
- **Mental Awareness**
- **Emotional Blocks**

We can help you with that.

ALL things are possible.

If this is really true (and you will find it actually is) ..then there must be some WAY to access the things that most of us haven't believed are possible for us.

There is a Consciousness Technology that can be applied which will enable us to experience non-ordinary reality.

There's WAY more to this than can fit in a three fold brochure, but – for example:

- **Health concerns** – Pain relief, resolving chronic conditions, and more
- **Relationships** With significant others, parents, children, co-workers...
- **Finances** Yes, Really! “energy is energy”.

Is it possible that our (well-meaning) parents, teachers, clergy and others gave us.. incomplete information? Yes.

Newtonian Physics worked... as far as they went. – We now have evidence Quantum Physics gives us a more complete picture of how things actually work. They REALLY do.

Remote Sessions are now available.

“You don't know what is possible until you stop asking yourself 'What's Not possible?'...”

“When you stop asking the question, 'Why can't I do that?', and you ask, 'What would happen if I did?', you open up infinite vistas of possibility.”

- Dr. Richard Bartlett, N.D., D.C.

Matrix Energetics™ is a Consciousness Technology – and different from a healing “technique”. It is a way of learning how to access intuition and the field of the heart so that you can drop into a place where Miracles are instantly possible.

You may have heard or read that, “all things are possible”, and like most, thought of that idea as being a figurative / airy-fairy / when we all get to heaven – type of idea.

All things are possible –

Intention and Love are now verified as clearly identifiable catalysts for change that, when properly applied, yield results!

The term “healing” is usually associated with the passage of time. Transformation, on the other hand, can be instantaneous. And, you don't have to “believe” to benefit.

“Real World” examples –

“2 herniated disks... constant neck pain. ..I have tried virtually everything to gain relief. Before [M.E.]..my pain level [on a scale of 10] was approximately an 8 and within seconds it was down to a 2-3 level .. George assisted in clearing away the last bits of pain I felt. I had no pain when I left the session. The next morning I woke up and still I had no pain.”

- Wendy M.

“I was stressed with financial problems.. Couldn't sleep.. Couldn't focus.. George two-pointed me. I immediately felt the peace and relief. I am now sleeping well and now [2 weeks later] I have a new job.”

- Frank A.
